

# 37<sup>th</sup> International Symposium on Microscale Separations and Bioanalysis

July 11-14, 2021 • Boston, MA, USA

[MSB-conferences.org](http://MSB-conferences.org)

Virtual Edition

## Engage, Stay Connected, Build Connections Your Guide to e-MSB 2021

**Don't Miss Out! Dynamic Action-Packed Virtual Program, 145 Talks, Presentations by World-Renowned Experts, Great Networking Opportunities, Exhibits, Posters, Researcher Awards, Career Hub, Educational Training!**

### STARTS JULY 12 - REGISTER NOW!

Pre-registrants: Login and checkout the platform that's Open Now

Pre-registrants: Look for an email from [vizzi.live](mailto:vizzi.live) to access the site

Action-Packed Program of 145 talks, posters, seminars, tutorial, exhibits, poster competition, researcher awards, career hub and great networking opportunities

**THE CONFERENCE PROGRAM FOCUS IS ON SCIENTIFIC INNOVATION AND IMPACT** The action-packed scientific program is designed to engage scientists working across the vibrant landscape of bioanalytical research. The program covers aspects related to all major microscale separation techniques including capillary electrophoresis (CE), liquid chromatography (LC), microfluidics, mass spectrometry (MS), LC-MS, CE-MS, Lab-on-a-Chip devices, the fundamental aspects of micro- and nanofluidics, microchip fabrication, portable devices, as well as applications related to pharmaceutical sciences, biotechnology, clinical diagnostics, forensic toxicology, omics techniques (proteomics, metabolomics, etc.), food analysis, nanoparticles, industrial chemicals, and more!

### Plenary Lecturers

Amy E. Herr

University of California, Berkeley

Luke P. Lee

Harvard Medical School, Brigham Women's Hospital

Matthias Mann

Max-Planck Institute of Biochemistry

Mehmet Toner

MA General Hospital & Harvard Medical School

Gregory Verdine

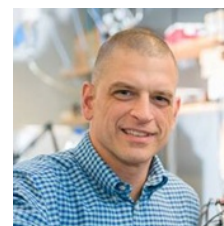

LifeMine Therapeutics

John Yates

The Scripps Research Institute

### Sponsors

**Alexander R. Ivanov**  
 SYMPOSIUM CHAIR  
 Barnett Institute of Chemical and  
 Biological Analysis  
 Northeastern University

**Kimberly Hamad-Schifferli**  
 SYMPOSIUM CO-CHAIR  
 University of  
 Massachusetts Boston

**Jarrod A. Marto**  
 SYMPOSIUM CO-CHAIR  
 Dana-Farber Cancer Institute  
 Brigham and Women's Hospital  
 Harvard Medical School

The e-MSB 2021 conference is held under the auspices of the Society for Microscale Separations and Bioanalysis that serves a community of researchers from around the world who work in a large diversity of fields that focus on the development or applications of microscale separation techniques.
